ULUKA ULTRA

Institutional-Grade Algorithmic Trading, Democratised

Executive Pitch Deck · Confidential

● LIVE SYSTEM

THE PROBLEM

Retail Traders Are Structurally Disadvantaged

No Edge

Retail traders lack the algorithms, data feeds, and infrastructure that hedge funds use daily.

Emotional Trading

Fear and greed destroy discipline. Manual trading leads to inconsistent, loss-making decisions.

Locked Out

Institutional-grade tools cost tens of thousands. Retail traders have no access to proven systems.

80% of retail traders lose money. The system is broken.

Uluka Ultra

A fully automated, AI-powered trading system that gives retail clients hedge-fund-level execution — with zero screen time required.

From Onboarding to Profit in 4 Steps

01

Client Onboards

Client pays subscription. Operator generates a unique licence key with equity cap & expiry via the Admin panel.

02

EA Activates

Client installs Uluka Ultra EA on MT4/MT5. HWID-bound licence validates automatically on first run.

03

AI Trades

The EA scans markets 24/5 using FVG, CHoCH, BOS, and Farsight strategies. Guardian monitors drawdown in real time.

04

Revenue Flows

Profits tracked per client. Operator earns 25% PAYE cut every Friday, automatically calculated on the Live Dashboard.

BUSINESS MODEL

Multiple Revenue Streams, Aligned Incentives

💳 Monthly Subscription

Fixed fee per licence key (MONTHLY / PRO / TRIAL plans)

📈 25% PAYE Profit Share

Operator earns 25% of all client net profits, paid every Friday

🔁 Renewal Revenue

Recurring income as licences auto-expire and clients renew

25% Operator Cut

Every Friday PAYE Payout

∞ Scalable Clients

Operator earns passively. Clients win when the algorithm wins. Fully aligned incentives.

TRACTION

Live System. Real Results.
